

CS 241: Administrivia

By Brandon Chong'17 (bschong2)

Enrollment

- This is the 3rd offering of Angrave's CS 241
- Many things are still being reworked, so some bugs are expected and we appreciate your patience
- There are about 200 of you people signed up :)

Course Structure

- Flipped Lecture
 - “reverses the traditional educational arrangement by delivering instructional content outside of the classroom and moves activities into the classroom” - wikipedia
 - Website will have prelecture material
- Computerized Testing
 - Computerized tests in the basement of DCL (233 style) every other week
 - 3 midterms and a final throughout the semester
- MPs - about 8 of them ~15hrs each
- Labs - 1 per week (graded + attendance)

Course Webpage

- The Course Webpage will be hosted at <https://courses.engr.illinois.edu/cs241/>
- Most of the logistics will be maintained here
 - Course Overview
 - Syllabus
 - Exam schedule
 - MP schedule
 - Lab schedule
 - Office Hours
 - Meet the Crew!
- Let's Explore!

Crowd-Sourced Wikibook

- The crowd sourced wikibook will be our “textbook” for the semester
- We will use this a lot
- <https://github.com/angrave/SystemProgramming/wiki>
- Will be assigned for prelecture readings
- Let’s check it out!

Linux In A Browser

- Angrave's Massive open online course (MOOC)
 - <http://angrave.github.io/sys/>
- Let's Play!
 - <http://angrave.github.io/sys/#playground>

Lecture Recording

- This semester's lecture will be here: <https://recordings.engineering.illinois.edu:8443/ess/portal/section/fec4279f-00ab-4f4f-93af-f797f0371b44>
- Fall 2013's lecture (the more “traditional” lectures / non-flipped) will be here: <https://recordings.engineering.illinois.edu:8443/ess/portal/section/5c2b8ba4-bdbd-472a-ac1a-48ae0ab79d64>
 - Taught by Wade Fagen

Class Transcribe

- Last semester's lecture recordings
- Indexed by transcriptions
- Demo: "How does Angrave pronounce his name?"
 - <http://classtranscribe.com/>

SVN

- Where most of your code will be submitted
- <https://subversion.ews.illinois.edu/svn/fa15-cs241/>
- Please email me at bschong2@illinois.edu if you need permission

GitLab

- Experimental private git repos
- Will host code samples
- Basically used to figure out how to incorporate Git into a full size class
 - Eventually take over SVN in future semesters
- Sign up here: <https://gitlab-beta.engr.illinois.edu/> with your netid and AD password
 - You will later be added to the course repos

Piazza

- Used to ask questions to your instructors and peers
- <https://piazza.com/class/idc54h6mawo6t8>

Questions?
